🌐 linkedin.com/in/sehrish-ejaz

CS undergraduate at FAST NUCES Lahore, skilled in Python, C, SQL with project experience in Software Development, UI/UX Design, AI/ML and Software Testing. Seeking internship opportunities to learn and grow.

🎓 EDUCATION

PGC, FSc (Pre-Engineering)

08/2020 – 06/2022

Gujranwala, Pakistan

FAST NUCES,

Bachelor of Science in Computer Science

08/2023 – Present | Lahore, Pakistan

💻 SKILLS

Programming

Python, C, C++, SQL, React.js, Node.js, HTML, CSS

Tools & Platforms

Git, GitHub, VS Code, Linux, Figma, Cisco PT, Katalon Studio, Selenium

Soft Skills

Teamwork, communication, problem-solving, seminar presentations

Domains:

Software Testing, AI/ML, Software Development, UI/UX Design,

🌐 LANGUAGES

Urdu: Native

English: Fluent

🏆 AWARDS

BScH, Runner-Up, Business Scavenger Hunt, FAST NUCES Business Society, Isb campus 2024

FPSC, Winner, C++ Coding Competition, FAST Problem-Solving Challenge, Fsd campus 2024

FLS, Certificate of Participation, FAST Literature Society, 2024

📁 PROJECTS

Online Library Management System

- Database-driven system with member management, book tracking, and fine calculation
- Designed ER diagrams, normalized schema to 3NF, wrote complex SQL queries
- Tech:** SQL, Oracle/MySQL

TradeNex — Digital Trade, Inventory & Ordering Platform

- Web-based procurement platform for tile installation materials targeting contractors and distributors
- Designed Figma wireframes and prototypes focused on usability and guided user workflows
- Implemented core features including product management, cart, order tracking, and quote requests
- Tech:** Figma, UI/UX Design, Wireframing, Prototyping, Requirements Elicitation, System Design

AI-Powered Construction Material Requirement & Quote Recommendation System

- Developing a decision support system for TradeNex, a real-client platform, that estimates tile installation material quantities (clips, wedges, grout) and recommends grout colour based on project inputs
- Tech:** Python, Random Forest, Pandas

OSPF Multi-Area vs RIP Distance Vector — Routing Comparison

- Performance evaluation of two routing protocols implemented on Cisco Packet Tracer
- Analyzed convergence time, bandwidth usage, and scalability across different topologies
- Tech:** Cisco Packet Tracer

Katalon Studio — Web UI Functional Testing

- Automated functional testing of a login workflow using Katalon Studio covering positive/negative test cases, Equivalence Partitioning (EP), and Boundary Value Analysis (BVA)
- Implemented data-driven testing using Excel/CSV inputs with Chrome and Edge browser compatibility
- Tech:** Katalon Studio, Selenium, Data-Driven Testing, CI/CD

Customer Service Module

- Built a module using doubly linked lists and AVL trees for user data management
- Optimized search/retrieval with custom templates, as per DSA coursework
- Tech:** C++

Hotel Management System

- Developed a system for hotel bookings and services using OOP principles
- Implemented room allocation and billing with efficient data handling
- Tech:** C++
